EDUCATION

Web Development

Masai, Bengaluru
October 2024-present

Bachelor of Science (Zoology)

Veer Kunwar Singh University,
Arrah
September 2023-present

TECHNICAL SKILLS

CSS3 | HTML5 | React | Redux |
JavaScript | Bootstrap |
TailwindCSS | Github |
Firebase | Figma

SOFT SKILLS

Attention to Detail |
Adaptability | Teamwork |
Effective Communication

PROFESSIONAL SUMMARY

Passionate front-end developer with a strong foundation in HTML, CSS, JavaScript, React, and Redux. Quick learner with a keen interest in improving coding practices, problem solving, and staying updated with modern web technologies. Eager to apply my skills to build dynamic, responsive, and user-friendly web applications and contribute to impactful projects.

PROJECTS

1. Quiz App | |

React | RESTful APIs | CSS3 | Responsive Web Design |
React Bits | Framer Motion | GitHub

- Developed an interactive quiz app using React to test knowledge across tech topics.
- Implemented responsive design with CSS3 and optimized user experience using React Bits and Framer Motion.
- Integrated dynamic questions from an external RESTful API for updated content and provided instant feedback on answers.
- Enhanced performance and scalability with efficient code and optimized loading times.
- Implemented Git-based version control for collaborative development workflows.

2. Apna Bazar | |

JavaScript | HTML5 | CSS3 | Glitch

- Built a dynamic shopping application with HTML5, CSS3, and JavaScript focusing on user-friendly design.
- Managed backend integration with Glitch for product management, ensuring smooth data handling.
- Implemented various interactive UI components such as a hamburger menu , keyframes and animations.
- Focused on responsive design to ensure the application operates smoothly on different devices.
- Handled all development aspects of the project independently within a 3 days.
