Effective Communication

Kajal Tiwari

Frontend Developer(React)

PROFESSIONAL SUMMARY

Passionate front-end developer with a strong foundation in HTML, CSS, JavaScript, React, and Redux. Quick learner with a keen interest in improving coding practices, problem solving, and staying updated with modern web technologies. Eager to apply my skills to build dynamic, responsive, and user-friendly web applications and contribute to impactful projects.

PROJECTS

1. Apna Bazar | 🌐 | 🛒

JavaScript | HTML5 | CSS3

- Developed a dynamic and user-friendly shopping application using JavaScript, HTML5, and CSS3.
- Implemented interactive features such as Hamburger menu, carousels, and product pages with backend integration.
- Executed selective search functionality to enhance user experience and ease navigation.
- Used JSON server to host and manage product data.
- Independently managed and delivered the project in 3-4 days.
